❖ **Projects Undertaken**

I have enlisted below some of the recent remarkable projects worked in my Software development career:

1. Project Name: Little Arrow

Technology: Shopify

Background: Little Arrow is a leading accessories brand based in Oregon, United States. They specialize in providing stationery and gift items which are highly influenced by designer's childhood, toys along syncing with vintage clothing and costume jewellery fashions.

Role:
- I have worked as the Shopify developer for this project with the features like:
    o Secure Shopping Card-256-bit SSL
    o Customer review tool integration
    o Dynamic news Header
    o GEO Trust Certified
    o Integration with Dropshippers & Fulfillment centers
    o Payment Gateway Integration
    o Social Media Integration
    o Newsletter Implementation
- Played a crucial role in Technical analysis of the client requirements and planning the basic level implementation
- Following Third Apps integrated:
    o Payment Gateway Integration
    o Inventory Management Tool
    o Geo Trust Certificate
    o Customer Reviews

2. Project Name: Mini McGhee

Technology: Shopify

Background: Mini McGhee is a leading knitwear retailer specializing in fine, Scottish knitwear and textiles that blend vintage and modern influences to warm family and home for generations. Since its foundation as a colleague business in 2011, Mini McGhee has grown to become a full-scale omni-channel retailer with a commitment to quality at heart of its offering.

Role:
- I have worked on dedicated hire for the Shopify requirements of the client
- Played a partial role in the understanding & analyzing the customer requirements.
- Regular client communication over Skype & source code commitment on daily over GitHub
- Few of the 3rd Party extensions integration done during this development are:
    o Inventory Management Tool
    o PayPal Integration
    o Social Login Integration

          o   SSL security support for shopping card
          o   Dropshippers & Fulfilment centers
          o   Sticky headers implementation
          o   Newsletter implementation
          o   Parallax Theme Integration

3. Project Name: Doisy & Dam

Technology: Shopify

Background: Delicious chocolate made with ethically sourced, sustainable ingredients. Our dark chocolate is vegan, and our tasty bars make the perfect chocolate gifts.

Role:
- I have worked as the Shopify developer for this project with the features like:
  - Secure Shopping
  - Payment Gateway Integration
  - Social Media Integration
  - Blog Integration
  - Newsletter Implementation
- Played a crucial role in Technical analysis of the client requirements and planning the basic level implementation
- Following Third Apps integrated:
  - Payment Gateway Integration
  - Inventory Management Tool

4. Project Name: House Of Holland

Technology: Shopify

Background: The official site for HOUSE OF HOLLAND clothing, footwear, denim, eyewear, bags, jewellery and accessories.

Role:
- I have worked as the Shopify developer for this project with the features like:
  - Secure Shopping
  - Email configuration
  - Payment Gateway Integration
  - Inventory Management
  - Social Media Integration
  - Newsletter Implementation
- Played a crucial role in Technical analysis of the client requirements and planning the basic level implementation
- Following Third Apps integrated:
  - Payment Gateway Integration
  - Inventory Management Tool
